Our Public Water System Has Completed an Initial Service Line Inventory

No Lead Service Lines or Galvanized Service Lines Requiring Replacement (GRR) were found, and we have no service lines where the construction material of the line is unknown.

On October 16, 2024 New Gloucester Water District provided the Maine Drinking Water Program with a request for approval of our initial service line inventory, which identified no lead, galvanized requiring replacement (GRR) or unknown service lines.

The service line inventory was developed using the following verification method(s):
(Water system must select all verification methods used in its evaluation of service lines)

- Field Inspection by PWS
- Records Review
- Statistical Analysis
- Customer Self-Identification
- Other(s) Maine Drinking Water Program -Approved Method(s):

For more information on all service lines for New Gloucester Water District see www.newgloucester.com or contact New Gloucester Water District at 207-926-4126.
